LETTER FROM OLYMPIA

OLYMPIA, N[illegible] 28th, 18[illegible]

[illegible]

Having just returned from a somewhat protracted absence, I hasten to comply with my promise to keep your readers posted on passing events. The principal topic of the day which creates some excitement and [illegible] is the extraordinary conduct of the [illegible] in vetoing [illegible] sixty bills of a general nature which had received the almost [illegible] of both branches of the Legislature. To give your readers a fair understanding of the enormity perpetrated by this modern caricature [illegible] it is necessary to state that two years ago the Legislature passed an act providing for the thorough codification of all laws then in force and a commission consisting of B. F. Dennison, [illegible] Lander and [illegible] Evans were appointed to codify, revise, digest and arrange and bring together the various laws under appropriate heads and titles and report the same to the Legislature together with such amendments to the General Practice Acts as they might deem proper. The necessity for the passage of such an act consisted in the fact that the general laws of the Territory were contained in some fifteen different pamphlets published in fifteen different years and ever since the organization of the Territory. Some of the books were almost entirely out of print and all of them were very scarce. The old Practice Acts governing the proceedings in the various Courts had been patched up and amended year after year, so that even the profession found it extremely difficult to tell what the law really was. Hence a general [illegible] and [illegible] was made by the people irrespective of party for a revision of the laws, and a publication of the same in one volume. The work of the Code Commission was performed by [illegible] who was considered by all parties to be eminently qualified for the task and he performed his duty well. At the beginning of the present session the work was reported to the Legislature and a select Code Committee was appointed to examine the report. The action of the Legislature in this respect was divested of all partisan character, the committee consisting of four Democrats and four Republican lawyers who reported the bills from time to time and worked almost incessantly for nearly four weeks. The original laws with all the later amendments incorporated and arranged appropriately and systematically were passed unanimously in the lower House and also in the Council with the exception of Blinn and Clarke, the chronic bolters, and advisers of poor Flanders. On yesterday, however, the Executive returned without his approval nearly sixty of the aforesaid bills, assigning as his reasons first that they were now in force in our Territory and were undoubtedly good laws, secondly, that to print them would cost the Government too much money, and in the third place, that they had been acted upon entirely too hastily. This extraordinary message shows that the Governor either uttered a deliberate falsehood or else, that he was entirely ignorant of the contents of many of the bills vetoed by him. I have it from very best authority that many of the vetoed bills contained very important amendments which the progressive condition of affairs in our Territory imperatively demanded. New features in the laws had been incorporated to assimilate them to laws of neighboring States, and members of both political parties congratulated themselves upon the prospect of having a system of laws, which would compare favorably with that of any other State. As for the "hasty and imperfect manner" which the Governor impertinently charges in his message, I can only speak from the testimony of others, who all concur that the committee having the work in charge, worked with indefatigable industry and zeal for over four weeks in perfecting their report. But aside from all these considerations we have here the mortifying and humiliating spectacle of a single irresponsible, imported official, holding a position obtained by treachery from a Republican Administration, a political vagrant, who dare not step beyond the boundaries of the Territory for fear of a writ of arrest, a man who has falsified every promise and broken every obligation, using a little brief authority in frustrating the will of the people as expressed by their representatives. "A [illegible] of sainted memory is no where!" Sixty vetoes in one day and not a very good day for vetoing neither!

Verily "fools rush where angels fear to tread." It remains to be seen whether the Democrats will stultify their action and sustain the veto. They all voted *unanimously* upon the question of the final passage. But it is strongly suspected that Flanders was privately assured by the Democrats that his veto would be sustained by them, they having fourteen out of thirty votes in the House. I learn that to-night a proposition was made by the Democrats to the Republicans to pass some swindling appropriation bills and in return they would pass the bills over the veto. But the general feeling of all the Republicans is in favor of a manly, independent and unconditional position, and of throwing the responsibility, where it belongs, upon Flanders and his Copperhead friends.

BOLTING MANIFESTO

I would call your attention to the *Commercial Age* of the 27th inst., where the above mentioned manifesto is published in full. The authors of the same are Alvan Flanders, B. F. Dennison and thirty others. They give it as their opinion that the Republican party in this Territory has ceased to exist, that the nomination of the present Delegate to Congress was a "fraud and imposition on the Republican party of this Territory," and that his election was a triumph of political impostors and not of Republicans. Please remember that all the signers of this manifest with two or three exceptions voted for the Copperhead candidate at the last election. They now call for a reorganization of the Republican party and constitute themselves the Executive Committee who are to superintend this general purification. This circular has been clandestinely peddled around by Judge Dennison for the purpose of obtaining signers and was not intended to be published for some time. Hence its publication in the *Age* created quite a fluttering among the bolters, as it clearly divulges their future plans and will have a tendency to convince all true Republicans that their only aim is the total destruction and disintegration of the party in the Territory.

A. ROWLES.

Newell of the *Statesman* who is a member of the Council is very abusive and coarse, especially when under the influence of liquor. On Friday he applied in the course of debate some very low epithets to Mr. Bradshaw, who is also a member of the Council and charged him (Bradshaw) with sundry misdemeanors. Mr. Bradshaw demanded retraction which Newell failed and refused to give, whereupon Bradshaw branded him as a coward and a liar. Thereupon [illegible] Newell picked up a tumbler and let fly at Bradshaw's head while Bradshaw was being held by the Sergeant at Arms who together with the President tried their best to maintain order but the whole thing was done so quick that persons could hardly realize what had happened until it was all over.

These are the facts as I have them from an eye witness. The Council has suspended both the participants from voting and speaking until further order and appointed a committee to deliberate and advise what course is to be taken with reference to this breach of decorum. Public opinion generally considers Newell's conduct as cowardly and [illegible] rather than a law maker. Some of his Democratic colleagues among the lower House from Walla Walla [illegible] his expulsion.

Mark Twain writes: "I paid a visit to [illegible] Hale & Norcross [illegible] they sold me out [illegible] had to take in washing for a living, and the next month that infamous stock went up to $1,000 a foot. I own millions and millions of feet of affluent silver leads in Nevada—in fact I own the entire undercrust of that country, nearly, and if Congress would move that State off my property so that I could get at it I would be wealthy yet. But no, there she squats—and here am I. Failing health persuades me to sell. If you know of any one desiring a permanent investment, I can furnish him one that will have the virtue of being eternal."

The remains of John Bunyan, Daniel De Foe and Isaac Watts, are buried in one of the unconsecrated graveyards in London.

Vanderbilt offers to build a first class prison and give $200,000 to boot, for the Sing Sing penitentiary property. He wants it for railroad purposes.

Ex-President Pierce's relatives are already quarreling over his will. His bequests upset all their calculations, those expecting the most getting the least.

George Jeffroys, a Nevada miner, on the [illegible] November, while at work in the Hale and Norcross, fell with the cage 210 feet from the third to the fifth level without breaking a bone.

It is stated that Bilk Flanders of Washington Territory is going to Washington on a political pilgrimage, provided some one will lend him the necessary funds. Guess he won't come through Portland.

The fighting lawyers of East Portland have concluded to go into co-operative ship building. Col. Chapman we are told read a paper to his [illegible] Leagues on Monday evening outlining a plan for the purpose. No doubt they want a ship to carry them up Salt River.

The New York *Herald* has concluded that Judge Chase will not do for Democratic candidate for the Presidency in 1872, and pronounces him "worn out." Three weeks ago the *Herald* was a Chase organ. The present candidate for that changeable sheet is Gen. George H. Thomas whom it pronounces the coming man.

The Salem *Press* charged recently that Solomon Fitzhugh of Douglas county paid Gov. Woods for a pardon lately signed by him. Mr. Fitzhugh writes a letter to Beriah which the venerable slanderer prints with much whining, utterly denying the statement. This is only a specimen of Democratic warfare on Republican officials everywhere.

The *Herald* says: "We printed an extract from Deacon Bross' letter, in which the pioneers of Oregon were slandered in the vilest manner, being called 'corner grocery loafers,' etc. To this the OREGONIAN replied that the editor of the *Herald* was a 'corner grocery loafer.'" The OREGONIAN did not make this reply. There are many facts which it is not at all necessary for a journalist to take notice of.

And now "Shirley Dare" tells in the New York *Tribune* the whole ridiculous story about that pompously dull and "powerfully weak" attempt at sensational journalism, the late *Imperialist*. It seems that the originators of the enterprise were three young men of whom two were "Americans and renegade Republicans." One wrote editorials alternately for Grant and Seymour last year, in hope of getting a consulship; one was an Englishman of some culture, and the third, the working editor of a small financial paper, a very young man—so young that it is difficult to characterize him further. All three were Bohemians of Bohemia in the eminent degrees of debt and discontent.

FINANCIAL AND INDUSTRIAL ITEMS

A submarine cable is proposed between Mexico and the United States, and a memorial is to be presented to Congress on the subject.

During the last fiscal year about 7,000,000 acres of public lands were entered under the homestead and other laws yielding to the Government between $4,000,000 and $5,000,000.

The rate of letter postage between this country and England is likely to be reduced six cents on and after the 1st of January, which will be a great improvement. The change from 24 to 12 cents two years ago has nearly doubled the number of letters, and the proposed reduction will soon double them again.

The London *Daily News*, referring to Mr. Boutwell's Philadelphia speech and the rapid payment of the national debt, says that "nothing has been known like it, and Mr. Boutwell appears only too moderate in assuming that such a nation may soon be able to substitute loans bearing a low interest for its present high rated debt."

It is estimated that by the end of the year 1869 there will be laid in the United States in round numbers 110,000 tons of street rails, equal to 1,100 miles of street road, and of this amount about 6,000 tons, equal to 300 miles, will be laid during the present season. These rails are in use on more than fifty different roads, and are partly of American, principally of English, and to a small extent of Prussian manufacture.

Austria has a paper currency, not at present on a specie basis and, like ours, subject to fluctuations. The difference between gold and paper in that country is now as low as 20 per cent, and has varied but little for many months past. By the present able political and financial management of Von Beust and the continuance of good [illegible] it is expected that Austria, before long, will be able to resume specie payment.

In building a chimney put a quantity of salt into the mortar with which the inter[illegible] of brick are to be laid. The effect will be that there never will be any accumulation of soot in that chimney. The philosophy is thus stated: The salt in the portion of the mortar which is exposed absorbs moisture from the atmosphere every damp day. The soot thus becoming damp falls down into the fire place. This appears to be an English discovery. It is used with success in Canada.

The Legislature of Vermont [illegible] seem [illegible] regard [illegible] [illegible] list [illegible] State and leave the traffic [illegible] free as that in any other commodity. The [illegible] of Vermont are [illegible] the law will remain a dead letter [illegible] different [illegible] the Legislature [illegible] the law [illegible] [illegible]

The Railroad Convention [illegible] was held at Saginaw, Mich., [illegible] in the interest of the North Lake [illegible] and Michigan [illegible] road. This is Western Trunk [illegible] connected with the [illegible] Oswego [illegible] within the city of Oswego a few weeks since. The entire route [illegible] contemplated is from Portland to Oswego, thence along the shore of Lake Ontario crossing the Niagara river and thence direct through Canada to the St. Clair river. Here the connection will be formed with the Michigan Short Line, which will extend northeasterly crossing the straits of Mackinaw and passing on to Duluth and the head of Lake Superior, from whence a direct line will be taken to Puget's Sound.

THE WEST

The [illegible] Railroad Company has [illegible] Marysville.

It is expected that [illegible] of the California [illegible] Railroad will [illegible] brought [illegible]

[illegible] three years Dr. [illegible] of San Francisco has [illegible] inquests. A [illegible] for a single city.

The State military authorities of California have determined to replace the ordinary muzzle loading muskets with breech loaders.

[illegible] has arrived at [illegible] Montana with a large lot of apples from Walla Walla. He was nineteen days on the road.

The skull of a fossil elk was found recently near Stockton, California. The imaginative editor of the *Independent* says: These animals doubtless existed during one of those distant epochs described by Herbert Spencer of cycles or periods of 25,000 years each. The weight of the head and horns of this specimen is 320 pounds.

Work on the new mint in San Francisco is progressing rapidly. 150 men are employed. The work is as yet confined to the foundation walls. The outer walls are five feet thick and built of granite. The inner partition walls are generally about three feet thick. The superstructure which will rest on the walls will be a basement and two stories above.

From the Yreka *Journal*: We were shown yesterday by Mr. [illegible] of Scott Valley just from [illegible] county, Oregon, a sample of the largest potatoes we ever saw, some of which weighed from five to seven pounds, raised at Coquille Valley in Coos county, Oregon, a short distance from the California boundary line. The potatoes are known as the Jenny Lind variety and measures from a foot to a foot and a half in length.

In Toulumne county, California, there is a mining syphon 1,000 feet long and four inches in diameter made of galvanized iron. The head of the syphon is sunk eighteen feet down a pit in a tunnel and the descent from the highest point to the foot is forty feet, giving a difference of twenty two feet between the levels of the two ends. The current is so strong that gravel an inch in diameter is carried out. The pipe leaks a little so that once a day it must be filled by a force pump.

The San Jose (Cal.) *Patriot* has the annexed: We learn from recently returned Californians that fruit raised in the Pacific States of Oregon and California is to be met with everywhere in the large cities on the Atlantic side of the continent. Our informant states that such is the great superiority of Pacific raised fruit over the fruit produced on the Eastern side, that the Pacific fruit is recognized as far as it can be seen on the stands. Oregon apples are said to be finer, larger and better than apples of California production while California pears and grapes are far superior to all others.

POLITICAL

The San Francisco *Call* says the Irish Democrats in that city are organizing to compel the party to give them a fair share of the spoils of office, which they allege has not been done.

The St. Paul *Pioneer* tells its candidate for Governor in the late election that his "splendid defeat is more honorable to him under the circumstances than the Republican candidate's victory is to him. Thus do they extract sunshine from cucumbers" in Minnesota.

The St. Paul *Pioneer* (Democratic) admits that the latest official and corrected returns for Governor of Minnesota give Judge Austin, Republican, [illegible] majority. Four counties remained to be heard from, which will increase this majority. The *Press* says the Senate will contain 14 Republicans and [illegible] Democrats and the House 28 Republicans and 19 Democrats.

The Chicago *Tribune* says: The coolness with which Democratic papers charge Grant's administration with responsibility for the frauds it is unearthing in the New York Custom House is refreshing. Collector Grinnell has made hardly any changes in the New York Custom House appointments. Whatever frauds are being brought to light are those which grew up under Smythe's administration.

We are now able to present the *Herald* with the full official figures of the Wisconsin election. The vote for Governor was as follows: Fairchild (Rep.) 69,269; Robinson, Dem., 61,085; Fairchild's majority 8,184. The *Herald*, it will be remembered, would have it that the majority was but [illegible] and that we presented an unreliable account of the election when we added a cipher to these figures and made them 8,500. The Madison [illegible] says that some of the majorities exceed 2,000. The *Oregon Herald* we believe pretends to be a newspaper!

Col. Thos. Brown of Columbus, Ky., recently returned to that city from a visit to Mississippi. He says the political excitement in that State was very high and both parties were making strenuous efforts to secure the colored vote. That vote is about 61,000, and it will go pretty much one way. Col. Brown says it seems rather odd to a "Kentucky gentleman" to be introduced to colored "Honorables," "Squires" and "Misters," and discuss the pending political questions with them, but "Sambo" is the big man in the canvass and the politicians on both sides have to treat him with great respect.

Most of the Federal officers and all the sore head office seekers in Washington Territory headed by Flanders and Dennison have published a political manifesto announcing that the Republican party as it was and as it ought to be in this Territory has ceased to exist, and that unscrupulous politicians in alliance with a hungry horde of office seekers, have stealthily crept into its councils, deceived, betrayed and disorganized the party. These chaps are photographing themselves. They are describing their own character and conduct to the letter. There are just thirty two of them and in their opinion the three or four thousand Republicans of the Territory are all wrong.

MINING ITEMS

[illegible] bullion sent East from Idaho [illegible] considerable quantities. Last week the First National Bank of Idaho sent $18,33[illegible] in bars.

The [illegible] of Big Ditch at Yreka [illegible] the [illegible] of that place to be a doomed institution. Breaks occur so continually that little use is made of it.

A San Francisco paper states for the information of miners in the interior and in answer to [illegible] that all ores assaying $[illegible] and upwards per ton can be disposed of in that city [illegible] Further [illegible] with fair profit.

The Walla Walla paper reports that parties down from Shasta report heavy snow storms in the mountains surrounding the mines and the miners were feeling confident that next season's [illegible] would show that to be the liveliest mining region in the country.

From the Walla Walla *Statesman*: Several gentlemen have lately arrived in this city from the Kootenai mines and among the number we recognize the genial countenance and portly form of Mr. James Gilbraith—a longtime merchant and sometime surgeon of that northern camp. Business has been suspended in those mines in consequence of cold and wintry weather. Mr. G. anticipates better times and better pay in the Kootenai diggings next season than has been obtained since their discovery.

OREGON

Some of the bridges on the Cascade mountain military road beyond Eugene have been carried off by high water.

A kerosene lamp exploded in the saloon of S. [illegible] at Eugene City last week. The building was set on fire and was saved with difficulty.

[illegible] and family of Albany who went East a few months ago are now on their return. They expected to stay longer but didn't find any place that offered any inducement.

The Polk county paper says: Sheriff Smith who has just returned from a tax collecting tour through the upper part of the county reports the times lively and plenty of money in the localities he visited. Twice as much pork has been received this season at Independence, for shipment, as in any previous year.

A fellow calling himself Col. Craig, and claiming to have served in the rebel army, has been perambulating Oregon for a year or two, and levying contributions from the [illegible] who have generally responded with enough to keep him going. The *Gazette* announces that he is now at Corvallis on a bumming expedition.

The *Statesman* of Tuesday says: The revival in the South Salem Methodist Church has been very interesting and the meetings are very fully attended. A great many conversions have taken place. The meetings are conducted by Rev. Mr. Wood, pastor, assisted by other clergymen. Many persons from this side of the bridge are in the habit of attending.

Speaking of Dufur's Statistics of Oregon, the San Francisco *Mining and Scientific Press* says California has not received so complete a description by counties even in Cronise's work. This is the kind of publication to produce immigration. There is only one thing wanting—a map to accompany the book—for with it almost any one would be induced to make a study of the country under the light of this additional mass of original and very readable matter.

The Polk county *Times* relates the following "hard case": Two young men made application to the County Clerk this week for license to marry the same girl. The first name accompanied by the father of the damsel, and a license was issued. Soon after, the second swain made his appearance, but as the lady of his love is a minor and he didn't bring his intended mother-in-law to sanction the proceeding, the poor fellow had to go away with a heavier heart—and pocket—than he had anticipated. "'Twas ever thus," etc.

RELIGIOUS ITEMS

The American Missionary Association has expended $145,000 in Georgia, on school work alone. Out of this work has grown the Normal and Academic University of Atlanta, now in successful operation.

The *Jewish Messenger* says that so long as Rabbis consent to the intermarriage of Jews and Christians, and ambitious parents encourage it, "so long the society for propagating the gospel among the Jews will be needless."

The Universalist papers are enthusiastically working for the Murray Centenary fund of $200,000, which they hope to have ready next year, besides endowments for institutions and other contributions. They are projecting numerous centenary meetings.

Two hundred thousand copies of the Chinese Bible, published in Foo Chow, by the British Bible Society, have been distributed within the last four years. Three hundred walled cities, one thousand two hundred villages, and fifteen provinces have been canvassed by the colporteurs.

A writer in the *American Churchman* thinks one reason why their church (Episcopal) numbers but three thousand communicants in Kentucky, after being established forty-two years, while the Campbellites have acquired a membership of 50,000 in half that time, is that their "services are long and tedious to the uninitiated."

Probably few of our readers ever heard of a denomination as the General Baptists, which have lately held their Association meeting in Indiana. They number one thousand, an increase of two hundred in twenty years. They are of glowing Southern sympathies, a good deal like the seceding "Siloam Association" up on the Molalla.

Dr. R. J. Breckinridge who with the other Professors in Danville Theological Seminary, Kentucky lately resigned under the threat of a committee of the Old School Presbyterian Assembly proposes to withdraw from the Presbyterian church. Nine tenths of the Presbyterians of Kentucky are said to indorse the action of the General Assembly in remodeling the seminary.

The statistics of the Mormon church, just published, show 14,371 communicants, of whom 4,895 are in Germany, 3,208 in Great Britain and 6,768 in North America. The communicants in mission fields are not counted in, but there are 19,123 persons in the foreign mission congregations, ministered to by 305 missionaries, which gives an average of one foreign missionary to sixty forty-nine members at home.

The Income Tax Investigation

The enforcement of Commissioner Delano's order for the overhauling and correction of the income returns of last year is producing quite a flutter in some of the Eastern cities. Evasions and delinquencies of all kinds are discovered. Some specimens of them are given by the New York *Times*. A merchant, for instance, finds at the end of the year, that his profits are represented in a book account, or in bills receivable, by $50,000. But, he argues, these accounts and bills, although perfectly good, have not been collected, therefore he has no income, and he forthwith makes his return accordingly. The Government loses the $2,500 taxes, but the merchant does not lose the accounts due him, which he proceeds to collect and place to the credit of his bank account, never admitting that any portion of it has been unjustly withheld from the Government. Others keep what they call a guarantee fund; that is, they carry to the account of a particular fund a sufficient percentage of the entire sales to guarantee every transaction. This percentage varies with different merchants from 2½ to 10 per cent. of their entire business, and thus a large share of the profits comes, after a series of years, to be represented in the accumulations of this fund, which is never counted in making the income return. Again, investments are made and the sum is set apart as a guarantee against loss arising from them. A firm, some time during the fall of 1868, invested $300,000 in Government bonds at 108. These bonds had risen by January 1, 1869, to 115. When the firm came to make their income return, they thought it prudent to set apart from their profits the sum of $30,000 to guarantee them against any loss which might result from a possible depreciation in the price of the bonds. It is needless to add that the $30,000 was deducted from the amount returned as income, and $1,500 was thus saved to the firm.

It is gratifying to observe that there is to be a rigorous enforcement of the law against persons of this description. They are generally men of wealth, and as they will not willingly bear their share of the expenses of the Government they are the very class who can be profitably compelled to do it.

A Shining Example.

The whole Democratic press of Oregon is just now declaiming in a most indignant and vehement manner against the practice of using official patronage for political purposes. These journals spend their whole time in conjuring up schemes and movements which they will have it are about to be put into operation throughout the State, to enure to the benefit of the Republicans. Their remarks make it apparent that there is a great deal of latent virtue in the Democratic party. A few years ago that party had no scruples about employing the patronage of all branches of Government for such purposes. Then, they could see nothing like corruption in it. Even the patronage afforded by our Indian war in 1855 and '56 was all devoted to the aggrandizement of their party. The objects of that war were converted into measures designed to ensure the permanent ascendency of the Democratic party in Oregon, and every man who could not be used by the political dynasty then in power was proscribed relentlessly. During the last Democratic administrations Government patronage was used continually for party purposes, and every postoffice and Indian agency and custom house was held to be a legitimate object for plunder to strengthen the party. The perfect knowledge of this art of using official patronage for party ends, which the Democrats acquired by their long experience, is what leads them now to lay similar operations to the charge of Republicans. Democrats remember how they used to manage it, and therefore they allege that Republicans, for the purposes of the coming election, are going to make improper use of the patronage they now, in their turn, possess. It is edifying indeed to hear from Democratic sources these virtuous exclamations. But in the meantime we notice that wherever they have any opportunity to use official patronage for party objects they are quite as ready to turn it to account as ever. In this county, for instance, they hope to get enough out of the offices for this term to insure success in the next election, and they are even now organizing for it. This party has in the past, and does indeed now, stand as a shining example of political virtue.

In General.

The election in Mississippi took place yesterday. By this time Dent's fortune is either made or marred. We should be glad if the latter fate had overtaken him, so that we might soon hear the last of "Judge Dent." He has been in the newspapers with disgusting prominence for six months. The brother-in-law relation, so far as it affects President Grant, should be abolished by statute at once.

The *Herald*, with characteristic urbanity, charges Senator Williams with presenting "false evidence" to the President regarding the progress of the Oregon railroad. It says, "Though the rails are being rapidly put down on the east side, yet no road can be said to be completed for that distance,"—viz: twenty miles. This is a puerile attempt to make a "point." Senator Williams was no doubt apprised from here by telegraph of the progress of the road. The track is laid for fourteen miles, and only six miles remains to be put down. This will be finished before the Commissioners can be apprised by mail of the fact of their appointment. By the time official notice of their appointment reaches them the road will be fully ready for the examination they are to make. Oregon is becoming a "fast country" now, and those who are managing great enterprises within its borders cannot afford to wait for such slow, old fogy operations as would please the *Herald*.

Already has our prophecy come to pass. The *Herald* is deeply distressed because a brother-in-law of the Portugese Minister is about to marry a negro girl. It says a "precedent is thus about to be established for marrying wenches," whereat "Radicals" will rejoice. Now we take this method of advising our contemporary that no American citizen is obliged to go among foreigners to find such a precedent. Those curious on this point may remember the illustrious example of Richard M. Johnson, once Vice President of the United States and a thorough Democrat, who married a wife whose complexion was the "shadowy livery of the burning sun." Or, dropping polished phrases and coming down to language such as the *Herald* is familiar with from daily use, this Democratic Vice President married one of the blackest and ugliest of "nigger wenches." But as "Radicals" don't follow Democratic example, this "precedent" has very little interest for them.

(DISPATCHES TO THE OREGONIAN.)

EASTERN DATES TO NOVEMBER 30.

New York News.

NEW YORK, Nov. 28.—The Spanish war vessels which were expected to rendezvous in this harbor it is now stated will not come at all. They were to have gone upon the docks at the Brooklyn navy yard for repairs. One of them is too large for that dock, and the fleet will probably go to Philadelphia.

Delamater, builder of the Spanish gun boats now under seizure, yesterday filed a claim to them as his own property, and makes answer to the libel that it is not true. The Spanish government so far has not interfered in the case.

The corps of engineers has just finished the survey of the proposed central underground rail way. It is understood to be so favorable that ground will be broken in February next, and the work will be pushed forward by day and night.

Gen. James L. Kiernan, recently United States Consul at Chin Chiang, died yesterday, aged 32 years.

The condition of A. D. Richardson is very critical to-day. He begins to show signs of great physical exhaustion. The ball has not been extracted, and any attempt at present it is believed would be fatal. He is kept under the influence of morphine.

Washington News.

WASHINGTON, Nov. 28.—The report of the Secretary of War, with subordinate reports from the various military departments and bureaus, and that of General Sherman, have been sent to the Public Printer. The reports of the Secretary of the Treasury and Secretary of the Navy, are not yet finished. With these exceptions, all the reports of heads of departments, are nearly completed. But few, if any of them, will be furnished to the papers in advance, as an effort will be made to prevent their premature publication, as in repeated instances heretofore. It is certain the President's Message will not be furnished to the press until the day it is sent to Congress. Nor will it be put in type until it shall officially be made public. Additional members of Congress continue to arrive, though not in large numbers.

Assurances have been received from well-informed sources that there is no truth in the rumor that the Spanish fleet is to rendezvous at New York, nor that the Navy Department is sending iron-clads to that port. The *Miantonomah* has been ordered to New York on a trial trip for the purpose of further repairs, if necessary. Several other vessels may proceed to New York next month to take stores. The above statement represents the present condition of affairs as obtained from an official source.

The Secretary of the Treasury has directed the Assistant Treasurer at New York to continue the sales of gold and the purchase of bonds during December.

WASHINGTON, Nov. 29.—The Ways and Means Committee had a quorum this morning and proceeded to business. The House demands a report on the tariff in two weeks from to-day.

A special says Vice President Huntington of the Central Pacific Railroad, and President Ames and Secretary Rollins of the Union Pacific, met Secretary Boutwell and Government Director Wilson, on Saturday, and finally adjusted all difficulties. The Secretary paid the Central Pacific two and a half millions in bonds, which were immediately turned over to the Union Pacific, as part of the purchase money for the section between Ogden and Promontory, which completes the Government issue of bonds for the road. The junction hereafter will be Ogden. The Central Pacific gets no pay for grading this side of Promontory and the Union Pacific gets none for grading the other side. It is understood that the President's message fills about three newspaper columns. The message and Boutwell's report will be sent to Congress in writing, and must be telegraphed from Washington. The other Cabinet bureau reports will probably be mailed through the Associated Press on Wednesday or Saturday. The Treasury, Navy and War reports are only one-half or two-thirds as long as last year.

Binckley caused a suit for libel in damages for $50,000 to be instituted against Commissioner Rollins, while passing through Baltimore on Saturday. The complaint is based on Rollins' letter to Grant recommending Binckley's removal.

It is stated that the French Government, which refused to negotiate a new postal treaty with Senator Ramsey, on a more liberal basis, has asked that the present treaty, which expires on the 1st of February, 1870, be renewed for one year. This request our Government has positively declined.

Tragedy in Kentucky.

LOUISVILLE, Nov. 28.—A desperate character named Cooper, who had been whipped by a party of Regulators in Pulaski county, caused the arrest of the parties on Saturday morning. The case was fixed for trial and Cooper and his friends entered Somerset, the county seat, armed to the teeth. There the accused parties, numbering twenty, and Cooper, with his confederates, equally strong, entered into a quarrel, which culminated in a regular pitched battle. A hundred and fifty shots were fired, resulting in the killing of three men and wounding one. The fight abated by mutual consent, both parties being out of ammunition. Afterwards, each party having reunited its forces, they were about to re-enter the town, but armed citizens warned them off.

The Red River Rebellion.

TORONTO, Nov. 29.—A special from St. Paul says a letter from Pembina, on Saturday night, states that the insurgents are arranging to hold a council of representative from different districts to consider the state of the country and to determine as to their future action. Governor McDavish is very low. McDougall is still at Pembina.

Hydrophobia—Death from a Kick.

ALBANY, Nov. 29.—Henry Bunn, who was bitten by a dog in August, was taken with hydrophobia on Monday afternoon. He had intense suffering and died yesterday.

Alexander McDonnell, kicked in the abdomen a few days since by Murphy, died last night. Murphy is under arrest.

Richardson's Condition.

NEW YORK, Nov. 29.—The ball was extracted from Richardson this morning. His condition is more precarious than ever.

Another Sale of Gold.

The Assistant Treasurer has announced that Government will sell 11,000,000 dollars in gold and buy 13,000,000 in bonds in December. The announcement has caused considerable excitement in the Gold Room, with great pressure to sell. the price closes at 121⅞.

Murder.

Early yesterday morning, Cornelius Stahl, a German, was murdered in a shocking manner at Newark, New Jersey. Five persons are in custody, but it is supposed the real murderer escaped. The affair is a mystery.

The Drawback Frauds.

Another phase of the drawback rascality in the Custom House is now under investigation by the District Attorney. These frauds differ from those previously discovered, in the fact that the goods on which the drawback is claimed were ostensibly shipped, although the packages were in reality bogus, barrels of water for instance being substituted for barrels of oil. The culprits seem to be a different set of offenders from those connected with the previous frauds. So far as known no officials are implicated. Their extent is not ascertained. No arrests have been made.

A Swindling Operation.

A set of sharpers, calling themselves Faken & Co., having an office on William street, succeeded in swindling about one hundred and fifty laborers out of five dollars each, under pretence to furnish them passage to New Orleans, at which place they were to be set at work for $75 a day. On Saturday, the day for sailing, the office was closed and the company failed to put in an appearance.

The Alabama Claims.

The *Times* urges the transfer of the negotiations relative to the *Alabama* claims to Washington. It doubts a report that negotiations have been reopened by Motley. It says, however: We have reason to believe the British Government was officially notified some time since by the Secretary of State that this Government is ready to receive any new proposition which the British Cabinet might choose to submit. This was a mere formal notification, but certainly a reopening of it was simply a necessary formality in any event.

Cuban News.

The *Tribune* says, in spite of the representations of the Captain General's questionable organ, it is reasserted that the Spanish Admiral Malcompo did intend reprisals upon American commerce in the event that Minister Roberts had not changed the tone of his diplomacy. Both Admiral Malcompo and Minister Roberts will now perforce await the issue of the gunboat litigation and the action of Congress. If by that time they wish to treat, or to sell out, or to make war, they will be in order.

A. D. Richardson, this morning, is thought to be gradually sinking. No hopes are entertained of his recovery.

Cincinnati Dispatch.

CINCINNATI, Nov. 30.—A billiard tournament for the championship of the State commenced to-day.

Arguments have been commenced in the Superior Court for an injunction of the School Board prohibiting the reading of the Bible in the Public Schools.

Murder in Church.

LOUISVILLE, Nov. 30.—The Deacon of the colored church, in attempting to remove an unruly negro boy from the church, was mortally stabbed by the father.

Troubles in Mississippi.

MEMPHIS, Nov. 29.—Troubles in Mississippi are increasing. The citizens of Water valley were greatly alarmed last night by reported threats by negroes to burn the town, and a committee went to Grenada after troops, which were sent down yesterday afternoon.

A serious riot occurred in Winona, Miss., between blacks and whites. Some fifty shots were fired. Fortunately nobody was hurt. At last accounts further troubles were imminent. Reports are confirmed of a fight between whites and blacks in Sunflower county on Saturday week ago, in which 15 of the latter are reported killed. The leader of the blacks and eight or ten citizens were arrested by the military.

A train from New Orleans ran off the track this morning, killed the fireman, badly crippled the engineer and injured several passengers.

ST. LOUIS, Nov. 29.—A young man studying for the ministry at Nickendro College, Lebanon, Ill., who exhorted in that vicinity during the past year, was arrested on Friday last for stealing $2,200 in bonds from one of the Professors. The matter was brought to light by evidence received from a house of ill fame in St. Louis, at which it is alleged the student was a frequent visitor. He confessed guilt last evening, but escaped during the night.

Fire.

TOPEKA, Kansas, Nov. 30.—Ritchie block, which was occupied by a number of stores, Odd Fellow's Hall and U. S. Land Office, were destroyed by fire last night. Loss, $20,000. The contents of the Land Office were entirely destroyed.

ST. JOSEPH, Nov. 29.—A young man was knocked down to-night while going from the depot to the hotel and robbed of $1,600, just received at Leavenworth from his father's estate. No clue to the robbers.

Washington News.

WASHINGTON, Nov. 29.—Senator Edwards had an interview with the President this morning. Subsequently Secretaries Fish, Belknap and Attorney General Hoar were in consultation with the President.

Members of Congress who arrived have considerable business to attend to in the various departments. A large proportion have already had interviews with Secretary Boutwell, Commissioner of Internal Revenue, Treasurer Spinner and other prominent Treasury officials. The Secretary of the Navy is still engaged with his report. Commissioner Delano's report will be handed in, in about a week from to-morrow.

NEW YORK, Nov. 29.—Edward Ryan is appointed Assistant Assessor of Internal Revenue for the Second District of New York vice D. McFarland, the person who shot Richardson.

WASHINGTON, Nov. 30.—Burlingame, several weeks ago, authorized a gentleman who had just returned from Europe, to make the statement that the constant reports in regard to the Chinese Government and his mission, originated in China among those opposed to American civilization, and other grounds as to the policy of that Government. His diplomatic conduct has been in entire accord with the Pekin Government, and has therefore received its approval. His mission was extended beyond two years in February. He will proceed to St. Petersburg. It is also stated that the completion of his mission would complete the international triumph of China, and place her among the controlling nations of the world.

Erie Railroad Affairs.

NEW YORK, Nov. 29.—The suit of the Erie Co. against Vanderbilt was renewed to-day before Judge Barnard. Judge Black moved to dismiss the complaint on the ground that no cause of action was made and no proof of fraud or conspiracy was shown. If in fact the road has fraudulently paid out money it could not sue to recover. After some argument, Judge Barnard said the only ground on which cause could be maintained, was that of fraud and collusion between Vanderbilt and the officers of the company. It seemed to him the company's remedy was against Drew. Mr. Field called Daniel Drew, who testified at some length, detailing circumstances during July, 1868. Further hearing adjourned till to-morrow.

NEW YORK, Nov. 30.—The Captain of the bark *Scottish Pride*, from Bordeaux, reports he saw two sea serpents on the edge of the Gulf Stream, 200 miles east of Delaware Bay. One was 30 feet long, six or eight inches thick; the other about five feet long.

The freight train on the Erie Railroad, through carelessness of the conductor, ran into another freight train at Mast Hope on Saturday. Twenty bars were smashed.

The through train from Washington on the New Jersey road, collided with a freight train standing on the track at Princeton yesterday. Considerable damage was done, but only one person injured.

BY ATLANTIC CABLE.

PARIS, Nov. 28.—The *Patrie* to-day states that the ultimatum recently sent to the Khedive by the Sultan, admits of no discussion. If the Viceroy of Egypt does not comply with its demand, he will be deposed and his brother Mustapha Fazal will be recognised in his place. There are hopes, however, that the affair may be settled by the advice of European Powers.

A dispatch from Rome states that the members of the Ecumenical Council will meet at the Vatican, on the 8th of December, and at the conclusion of the preliminary ceremonies the Pope will announce the opening of the Council.

MADRID, Nov. 28.—In the Cortes, yesterday, the Republicans moved a vote of censure against the Government for the arbitrary use of power. The motion was rejected by a vote of 144 to 35.

It is stated that over 30,000 volunteers, in all, have been sent to Cuba.

PARIS, Nov. 20.—There was a reunion of the Senate and Corps Legislatiff to-day. The Emperor was present and made an important speech. He said that between those who would change and those who would grant nothing, a glorious course might be chosen. He announced himself ready to grant reforms. In closing he complimented the United States. Further details will be forwarded and later dispatches.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Nov. 29.—The safe of E. Newberger, broker, at 328 Montgomery street, was robbed early this morning. The burglars obtained access to the building by a flight of stairs leading from the street, and by breaking through a sky light effected an entrance into the office, knocked a couple of holes in the outer door of the Tilton & McFarland safe with a crowbar, pried it open and served the inner door the same. The amount taken was $5,000; about $2,700 in silver coin and the rest in gold coin, greenbacks and Japanese and Mexican coins. They were unable to carry all the money and left about $200 in silver coin. They also left bars, one of which was broken, and the leg of a pair of pants, in which they had carried the bars.

There will be a Democratic meeting to-night pursuant to a circular issued by D. J. Callahan and T. N. Cazeneau. The condition of the Democratic party at present is considered critical by them, and future success doubtful unless a re-organization is effected.

There is some talk of an opposition on the route between San Francisco and San Diego. Parties are understood to be negotiating for the steamer *Kalorama* for that purpose.

The Panama steamers will hereafter call at Mazatlan once every month for the mails.

SAN FRANCISCO, Nov. 30.—The revenue cutter *Wyanda* to-day sailed in search of the ship *Orion* the crew of which with the exception of four are reported down with the scurvy. The *Orion* was spoken November 13th by the ship *Arkwright*, arrived here several days since, but the Captain failed to report the condition of the *Orion* till to-day, when the authorities immediately dispatched the *Wyanda* to search for the distressed vessel. The boat from the *Orion* which boarded the *Arkwright* was in command of the mate, and he was represented as being in a horrible state, his jaws loose and his teeth falling out. The neglect of the Captain of the *Arkwright* in not before reporting the condition of the *Orion* is strongly condemned.

Mrs. McKenzie, wife of Frank McKenzie, was severely and it is feared fatally burned this forenoon, on Dunbar Alley, in rear of the City Hall. She was sitting near the grate of her room when her under clothing caught fire and she was almost immediately enveloped in flames. She rushed into the street and prompt assistance saved her from immediate death.

The Pacific Mail Steamship Company's steamer *Japan* sails for Yokohama and Hong Kong to-morrow.

The following companies have declared dividends: Pacific Bank 1 per cent for November; S. F. Gas Co, 2 per cent for November.

A telegram from New York to-day, states that the British ship *Moderation*, from Cardiff via Rio Janeiro, Aug. 31st, for this port, was abandoned at sea.

Alex. Human, aged 41 years, native of Cologne and President of the Musical Fund Society, committed suicide at Pique's Lodging House this P. M. by taking chloroform. Ill-health and general dissatisfaction with his condition, are the causes assigned for this rash act.

San Francisco Markets.

Flour—Market this morning quiet; sales of 1,000 Golden Mead extra, 16,000 bbls Eldorado good, and 900 qr sks do, all for China per *Japan*, private.

Wheat—100 sks good, private; choice shipping firm at $1 [illegible], but little offering.

Barley—Quoted at 90c@$1 07½ for ordinary coast to choice Bay brewing.

Oats—Small sales within the range of $1 10@$1 30; sales of 1,100 sks fair, $1 25.

FRESHEST GLEANINGS.

Three thousand tons of coal are used each day in the gas works of London. The aggregate consumption per year is 10,000,000,000 cubic feet.

Boston is building houses on the Parisian plan, which are said to be the most commodious and comfortable dwellings for families ever devised.

An exchange says that many "prominent citizens of Cincinnati, called on Michael McCoole, Esq.," the other day, and were entertained with "gentlemanly urbanity."

On the east bank of the North river, in Hampshire county, West Virginia, is an ice mountain from 100 to 500 feet high. The western side of this mountain is covered with loose stone, of a light color, from base to summit. By removing the stone, pure, solid, crystal ice can be found in the warmest days of summer.

A correspondent says that on the wreck of the *Stonewall* were found, on Sunday, a few bones and the skull, charred, blackened and crumbling, of what appeared to be a little child. Among those present was a young man who had come down to look for a little sister only two years old, and who, mounting the ruins, measured the tiny skull, weighed and examined the bones, and then shook his head mournfully amid an unbroken silence and said sadly, "I don't know. I cannot tell."

A young man and his intended presented themselves before the city clerk of Davenport, Iowa, the other day, for a marriage licence. It was found that the intending bridegroom was under age and had neither parents nor guardian. In order to make the proceedings regular the lady suggested that she herself should be appointed guardian. As she was over eighteen she was eligible, was duly appointed as guardian, and then gave her consent that her ward should marry herself.

The Wilmington (N. C.) *Post*, one of the liveliest papers in the State, says: "From all parts of North Carolina we hear of prominent Republicans engaged in manufacturing and seeking by every possible means to develop the resources of the State, and educate the working man. On the other hand prominent Democrats are engaged in purchasing Winchester rifles, and by every means in their power plot to destroy the peace and prosperity of the people." And again: "We intend soon to publish the roll of dishonor, being the names and residences of "Conservatives" interested in Ku Klux enterprises. Against this we intend to publish a real roll of honor, being the names of gentlemen who have and are developing the resources of the State, and seeking to educate the laboring classes."

A little girl in Pugwash, Canada, only 11 years old, recently displayed a heroism worthy of Joan of Arc. While sleeping in an upper room with a younger brother and sister, the house caught fire and no help could reach them because of the flames. She went to the window, where she was urged by the anxious people outside to jump, when the brave girl's reply came, "No, my brother and sister must be saved." Retracing her way through the heat and smoke, a sleeping brother was snatched and taken to the window, from which he sprang without injury. Again the dear girl went back and took a little sister and the two safely reached the ground. The young heroine, cruelly blistered and burnt all over, then dropped exhausted among the waiting friends outside; but the shock and injury was so great that she died the next morning.

INDIANS CONDEMNED FOR MURDER.—It is said the first instance of Indians being arraigned at the bar of justice and tried by law, for the crime of murder, has just occurred in Omaha, in the trial of four Indians for the murder of McMurty, killed last Spring. They have been found guilty and since their sentence the following effort has been made by the convicted savages to rob the executioner of his work:

"One of them obtained a round rod of hard wood, sharpened somewhat at the end; this he drove, by the exertion of much force by pressing against the wall, about an inch and a quarter into his chest, between the ribs. The other endeavored to swallow a stick, measuring a foot and a half. Luckily, they were espied by the jailor, who summoned a physician and both Indians were speedily delivered of their so-called instruments of death."

A neglected Cough Cold, or Sore Throat, which might be checked by a simple remedy like "BROWN'S BRONCHIAL TROCHES," if allowed to progress may terminate seriously. For Bronchitis, Asthma, Catarrh and Consumptive Coughs, "THE TROCHES" are used with advantage, giving oftentimes immediate relief. Singers and public speakers will find them also excellent to clear the voice and render articulation wonderfully easy.

BURNETT'S FLORIMEL on the handkerchief resembles the odor of a choice bouquet.

MARKET MATTERS AT SAN FRANCISCO.—We clip the following paragraphs from the Commercial Herald of the past:

The carrying trade overland appears to be steadily augmenting, assortments containing largely of assorted dry goods, clothing butter cheese bacon hams, eggs, groceries tobacco etc. The daily list of articles received by rail, and posted at the Merchant's Exchange is indeed suggestive of wonderful changes that are to be wrought in the future carrying trade to the Pacific coast. It is difficult to foretell the result upon the commerce of this coast; radical changes are indeed inevitable, they have already been more marked and decided than could have been foreseen. The Pacific Mail Steamship Line, once so formidable and all-powerful upon the Panama line, has fallen into insignificance as compared with the past, and it looks now as though the summer trade and travel would all seek the railroad, and leave the steamship the master of the winter trade only. Then again, what effect upon the fleet of ships via Cape Horn; what are we to do with our surplus wheat? Are we to have to send it to carry it by sea as heretofore, or will that also go overland? These are questions to be considered, and must be met.

California dried apples, in bags and sacks have been sold in quantities at 4½c ℔, at the same time, Oregon sold at 8c ℔ the latter preferred—the fruit in packages decidedly preferable.

The overland supply of butter and cheese is continued, the former, we fear, without profit owing to free receipts. Western Reserve which sold at our lowest quotations. At the same time, choice New York Goshen sold at extreme rates. Goshen cheese has been placed at advanced rates. Sugar-cured meats from Chicago continue to arrive in moderate quantities supplying a fair demand at remunerative prices. The pork supply is meager, yet about sufficient for our small demand. Beef is supplied by our local market men at low prices. Oregon bacon, hams and lard, as well as supplies of same from our own packers, barely equal the current trade; and, though prices quite steady. As for butter from our own dairies, there is some increase as the result of improved pasturage and warm weather. The result has been a slight decline under a demand occasioned by the competition arising from liberal overland supplies of strictly choice New York dairies, which are now retailing in market at reduced rates.

Bacon, hams and lard—We wait fresh arrivals from the North, in order to supply orders for bacon. We quote 17@17½c; lard 16@18c; according to quality. Sugar-cured meats quotable at 25@30c. At this date there is but little disengaged tonnage in port, our grain markets are inclined to ease, in several instances extreme rates paid for both wheat and barley, to complete. The outlook as we go to press, is decidedly against the continuance of any considerable export at present rates of grain and freights.

The receipts of certain articles of Oregon produce from January 1st to date, have been as follows: Flour qr sks 21,354, Oats sks 58 829 barley sks 3,837, bbls 1,837 hf bbls 2,356, cs 19 729 pkgs, bacon, pkgs 4,498; beef, bbls 458; butter pkgs 834, hams, 12 hams, pkgs 433, lard, pkgs 1 596, dried apples, pkgs 4,252; pig iron

EASTERN OREGON AND WASHINGTON.—The Real Estate Gazette for October, published at Walla Walla, contains much information of value concerning the eastern portions of Oregon and Washington from which we take the subjoined paragraphs. In answer to a letter from Thos. H. Canfield, General Agent of the North Pacific Railroad Co., Mr J W Northrop Assessor of Umatilla county, writes: Umatilla county is 170 miles east of Puget Sound, with an area of about 6 000 square miles, two-thirds of which is susceptible of a high state of cultivation; has about 20 000 acres under cultivation. The products are similar to Walla Walla valley as also the soil and climate. We have three water mills, two saw mills, employing about 200 men, and a capital of $55,000. Our timber is obtained from the Blue Mountains, there being about 800 square miles of timber land in the county. Our boundless pasturage renders this county pre-eminent for sheep raising. About 150 Chinamen are at work on the bars of the Columbia River, and take out sufficient gold to make fair wages. The population is about 2,500. Our school system is in successful operation.

Yakima County.—A large number of families are settling in this county this fall. Its resources are almost equal to those of Walla Walla valley. It lies on the west side of the Columbia river, and is now opening a railroad with Puget Sound. Its present population, about 700, are principally engaged in stock raising.

Fruits and grapes are successfully grown in Walla Walla and in other favorable locations both in

A correspondent at Victoria, writing under date Nov 23d, says "The ship Cooper with 1 614 tons of coal on board, is on a reef of rocks about forty miles from here. She was bound to San Francisco. The Dallas, Mr. Peck, arrived here last evening in a small boat and could find nothing in the harbor to go to the relief of the ship; so the British man-of-war Boxer started from Esquimault with a double crew. The to save the ship and perhaps will do so if does not come on. His plan is to throw off 900 tons of coal and tow her into Esquimault."

THROUGH A HOTEL.—Several persons called at an hotel about three o'clock yesterday morning for beds. The person in attendance below directed them up stairs. They went up, but instead of going to bed made a raid through some of the rooms after which they got off with four or five dollars which they found in lodgers clothing. The watchman thinks he can identify the fellows. If so they may get lodgings at the expense.

ORO FINO THEATER.—The Idiot Witness again last night at the Oro Fino Theater, with "The Spectre Bride" as an afterpiece. To night "Married Life," to conclude with the "Loan of a Lover"—both of which are cast to the full strength of the company. To morrow night Mrs Carter will take a benefit when a good bill will be presented.

EDITORIAL AMENITIES.—The Corvallis Mercury sent a paper to the Walla Walla Statesman marked "ex" in "go to hell." The Statesman retorts: "We have no desire to do either—but if necessary we shall certainly choose the latter alternative." The two editors will then certainly meet hereafter.

WE ARE REMINDED OF A STORY.—The late certain newspaper against the East side put us in mind of a story. It is the story of the Bull who tried to butt the locomotive off the bridge. The locomotive was not much hurt, but all that was left of the bull was the tale.

LOTS OF PROPERTY FOR SALE.—Messrs Stroud & Upton advertise this morning a considerable number of tracts and lots of land for sale not hitherto advertised. By calling upon them, parties desiring to purchase can find almost anything they may want in the way of real property.

IRON SOLD.—We are informed that the railroad iron brought last year by parties interested in the West side railroad, and which has been lying piled for some months at the Boneyard has been sold to Hon B Holladay and will be used upon the East side road.

PERSONAL.—Mr. N Packard, Clerk of Wasco county is in the city on official business, and will remain several days.

MORE GRATED CELLS.—The grates used in the old jail on Front street after lying in a sort of waste pile for several years were hauled up to the Court house yesterday. We learn they are to be fitted into some of the jail cells now being fitted.

DRAMATIC.—We learn that Mr and Mrs Bates are going to Salem this week and will give a dramatic entertainment at Reed's Opera House next Saturday evening. We cordially wish them good luck, full houses and all that sort of thing.

FIRE ALARM.—The alarm of fire yesterday afternoon was occasioned by the burning out of a flue in the brick building on Alder street. The engines were out.

CIRCUIT COURT.—The case of Boylston was engaged the day yesterday. It is expected that the testimony would all be in last evening.

LECTURE.—Rev Tidball will give a lecture this evening at H on the subject "Athens". Admittance free. Lecture to commence at half past seven o'clock.

LEE'S GREAT EASTERN CIRCUS.—We see by the Herald in advertisement that Lee's Great Eastern Circus had arrived and the people crowded to see.

SENT TO THE ASYLUM.—A insane man named O'Callan was sent to the Asylum Monday by order of the County Judge.

Thirteen hundreds of tons. The Belfast is on her way to this city. Everything to facilitate the building of the great Railroad is progressing as well as the Superb Beaver Suits at "Scotch" Houndstooth are seen at KOHN & FISHER'S whose Stock of CLOTHING and GENTS FURNISHING GOODS is the handsomest ever imported to Oregon and their plan of selling with SMALL PROFITS proves a benefit to the public as well as to themselves. Their Stock of DRY GOODS is positively offered at COST.

The following correspondence explains itself:

PORTLAND, Oregon Nov 1 1869

MESSRS. EVERSON & HAINES, General Agents New England Mutual Life Insurance Company, Boston

Gentlemen: Owing to the kind attention of yourselves and the New England Mutual Life Insurance Company of Boston for its promptness in paying me my terminal policy on the life of my husband. On the 1st in 1869 I was compelled to forego the payment of the last premium. Any other company would have lost me my policy—but I am now enjoyed with the receipt of the amount of the policy (less the amount of the unpaid premium only) thanks to the equity of the Massachusetts Lapse Laws that most of them. I recommend the New England Mutual to all who would provide against possible misfortunes. I sincerely thank you again for the payment and also for your generous and gentlemanly assistance in the matter.

Respectfully, BETSEY MILLER,

PORTLAND OREGON Nov 15 1869

MESSRS. EVERSON & HAINES, General Agents of the New England Mutual Life Insurance Company of Boston:

Gentlemen:—Having taken a lively interest in the affairs of the large and destitute family left by an old resident of this city who died Aug 2 1869 and who was insured in the New England Mutual Life Insurance Company we take pleasure in making the following statement for the information of the public.

A F C Miller was insured by ordinary Life Policy No 13 054 bearing date January 21 1863. He paid annual payments to January 21 1868 inclusive. Since then nothing has been paid. He died Aug 2 1869 or eighteen months after last payment of premium yet your company working under the Equitable Lapse Laws of Massachusetts pays the widow and orphans the whole policy deducting only the premium due, while in all other companies doing business here about which we know anything the policy would long since have been forfeited.

By the New England Mutual the widow has been paid $4 660 50. This we consider munificent, more especially when we take into consideration that the family would not have received a cent from any other company doing business on this coast. This in our estimation is enough to recommend this company above all others. This is Equity, this is Mutuality. We therefore commend this company to the public as the only company that has no forfeitures.

We herewith inclose you the acknowledgments of the widow.

Respectfully yours etc

What is a Tonic?

Bear this in mind—that although a tonic is to a certain extent a stimulant—a stimulant unmodified by any medicinal substance is not a tonic but a DEBILITANT. In HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country. Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce is expelled from the rye spirit which forms the alcoholic basis of the BITTERS by careful and repeated rectification. The juices of the valuable roots barks and herbs infused into this wholesome product of the finest grain still further modify its nature so that it becomes in fact a simple diffusive agent minus all the heady and brain exciting properties which belong more or less to all liquors in a raw state. It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective in reaching their active power and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache as unmedicated stimulants are apt to do this salubrious tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the blood to the surface, improves the appetite, increases the animal vigor, regulates organic action and from its mild yet effective alterative qualities is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.

THE PEOPLE SAY

That PERRY DAVIS' PAIN KILLER is the best remedy in the world for the complete and speedy cure of Rheumatism, Neuralgia, Lame Back, Gout, Bruises, Sprains, Swellings, Stiff and Swollen Joints, Burns, Cuts and Bruises, Pains in the Breast and Sides, Nervous Headache, Toothache, Earache, Sore Throat, Cramps, Chills and Fever, Diarrhoea and all internal aches and pains. Put up in two sizes—Price 50 cents and $1 00. Circulars with full directions around the bottles. For sale by all druggists.

THE BLOOD AND LIVER.

Life and health depend on their quality. DR. LANE'S NEW LIFE purifies the blood, heals all sores, expels from the system all scrofulous humors, cutaneous eruption and impure matter. It stimulates the Liver and Kidneys to healthy action, regulates the Bowels, cures Piles and Dyspepsia. Persons subject to Billious attacks and those suffering from the effects of Fever and Ague or any injudicious use of Quinine and Mercury will find PARR'S NEW LIFE invaluable. Price $1 00.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned who has always enjoyed public confidence for the excellent quality of his Drugs, claims nothing to justify the good name acquired by his products, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the Pacific a really higher price excites the cupidity of unscrupulous parties, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior production for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very best thing though unwilling testimony of the counterfeiters. Nevertheless buyers should be on their guard against this practice.

HOAGLAND'S

NEW PATENT SHAFT COUPLING!

W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,

Corner of Second and Morrison Streets.

He respectfully refers to the following

CARD.

Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Bipwater Patent, heretofore considered the best in use.

FORM OF PROPOSAL, GUARANTEE, AND CERTIFICATE.

Proposal.

The undersigned — —, whose post office address is —, county of —, State of —, proposes to carry the mails of the United States from July 1, 1870, to June 30, 1874, on route No. —, between — and —, under the advertisement of the Postmaster General dated September 3, 1869, with "celerity, certainty and security," for the actual sum of — dollars.

This proposal is made with full knowledge of the distance of the route, the weight of the mail to be carried and all other particulars in reference to the route and service, and also after careful examination of the laws and instructions attached to the advertisement.

Dated (Signed.)

Guarantee.

The undersigned, residing at —, State of —, undertake that if the foregoing bid for carrying the mail on route No. — be accepted by the Postmaster General, the bidder shall, prior to the 1st day of July 1870, enter into the required obligation or contract to perform the service proposed, with good and sufficient sureties.

This we do, understanding distinctly the obligations and liabilities assumed by guarantors under the 27th section of the act of Congress of July 2, 1836.

Dated (Signed by two guarantors.)

Certificate.

The undersigned, postmaster at —, State of —, certifies, under his oath of office, that he is acquainted with the above guarantors and knows them to be men of property and able to make good their guarantee.

Dated (Signed.)

Cal., Oregon and Wash. —4.

INSTRUCTIONS TO BIDDERS AND POSTMASTERS,

containing also conditions to be incorporated in the contracts to the extent the Department may deem proper.

1. Seven minutes are allowed to each intermediate office, when not otherwise specified, for assorting the mails, but on railroad and steamboat routes there is to be no more delay than is sufficient for an exchange of the mail pouches.

2. On railroad and steamboat lines, and other routes where the mode of conveyance admits of it, the special agents of the Post Office Department, also post office blanks, mail bags, locks and keys, are to be conveyed without extra charge.

3. On railroad and steamboat lines the route agents of the Department, also the British and Canada mails when offered, and the agents accompanying them are conveyed without charge; and for the use of the United States agents a commodious car, or part of a car, properly lighted, warmed, and furnished and adapted to the convenient separation and due security of the mails, is to be provided by the contractor under the direction of the Department.

Railroad and steamboat companies are required to take the mail from, and deliver it into, the postoffices at the beginning and end of their routes, and to and from all offices not more than eighty rods from a station or landing. Proposals may be submitted by the companies for the performance of all other side services: that is, for offices over eighty rods from a station or landing.

There will be "way bills" prepared by postmasters or other agents of the Department to accompany the mails conveyed on railroads and steamers, specifying the number and destination of the several bags. On other principal routes, likewise, receipts will be required and way bills forwarded; the latter to be examined by the several postmasters to insure regularity in the delivery of mails.

4. No pay will be made for trips not performed, and for each of such omissions not satisfactorily explained three times the pay of the trip will be deducted. For arrivals so far behind time as to break connection with depending mails, and not sufficiently excused, one fourth of the compensation for the trip is subject to forfeiture. For repeated delinquencies of the kind herein specified, enlarged penalties, proportioned to the nature thereof and the importance of the mail, may be made.

5. For leaving behind or throwing off the mails or any portion of them, for the admission of passengers, or for being concerned in setting up or running an express conveying intelligence in advance of the mail, a quarter's pay may be deducted.

6. Fines will be imposed, unless the delinquency be promptly and satisfactorily explained by certificates of postmasters or the affidavits of other credible persons, for failing to arrive in contract time; for neglecting to take the mail from or deliver it into a postoffice; for suffering it to be wet, injured, destroyed, robbed or lost; and for refusing, after demand, to convey the mail as frequently as the contractor runs, or is concerned in running, a coach, car, or steamboat on a route.

7. The Postmaster General may annul the contract for repeated failures to run agreeably to contract; for violating the post office laws, or disobeying the instructions of the Department; for refusing to discharge a carrier when required by the Department to do so; for running an express as aforesaid; or for transporting persons or packages conveying mailable matter out of the mail.

8. The Postmaster General may order an increase of service on a route by allowing therefor a *pro rata* increase on the contract pay. He may change schedules of departures and arrivals in all cases, and particularly to make them conform to connections with railroads, without increase of pay, provided the running time be not abridged. The Postmaster General may also discontinue or curtail the service, in whole or in part, in order to place on the route superior service, or whenever the public interests, in his judgment, shall require such discontinuance or curtailment for any other cause; he allowing as full indemnity to contractor one month's extra pay on the amount of service dispensed with, and a *pro rata* compensation for the amount of service retained and continued.

9. Payments will be made by collections from or drafts on postmasters, or otherwise, after the expiration of each quarter—say in November, February, May and August.

10. The distances are given according to the best information, but no increased pay will be allowed should they be greater than advertised, if the points to be supplied are correctly stated. *Bidders must inform themselves on this point*, and also in reference to the weight of the mail, the condition of the roads, hills, streams, &c., and all toll bridges, ferries or obstructions of any kind by which expense may be incurred. No claim for additional pay, based on such ground, can be considered; nor for alleged mistakes or misapprehension as to the degree of service; nor for bridges destroyed, ferries discontinued, or other obstructions increasing distance or expense occurring during the contract term. Offices established after the advertisement is issued, and also during the contract term, are to be visited without extra pay, if the distance be not increased.

11. Bidders are cautioned to mail their proposals in time to reach the Department by the day and hour named (3 p. m. March [illegible], 1870), for bids received after that time will not be considered in competition with a bid of a reasonable amount received in time. Neither can bids be considered without the guarantee required [illegible] sufficient [illegible].

[illegible]

The Department reserves the right to reject any bid which may be deemed extravagant; and also to disregard the bids of failing contractors and bidders. (Act of July 2, 1836, section 24.)

18. The bid should be sealed, superscribed, "Mail Proposals, State of Oregon," and addressed Second Assistant Postmaster General, Contract Office, to be sent by mail, not by or to an agent; and postmasters will not receive proposals for letters of any kind [illegible].

[illegible] The contracts are to be executed and returned to the Department by or before the 1st day of [illegible], [illegible] on that day, or on the [illegible] contracts be executed [illegible] not.

Transfers of contracts or of interest in contracts, are forbidden by law, and consequently cannot be allowed; [illegible] that they will be [illegible] to them.

19. [illegible] or other party [illegible] a station, will [illegible] their exact [illegible] of the Postmaster General [illegible] apply from the list of offices.

20. [illegible] act of Congress [illegible] contracts for the [illegible] in every case, to the [illegible] sufficient guarantee [illegible] to the mode of [illegible] to provide for the [illegible] and security of such [illegible] that proposals [illegible] certainty and security [illegible] the only legal bids, [illegible]

21. Postmasters are to be careful not to [illegible] sufficiency of guarantors or sureties, without [illegible] of sufficient [illegible] for their [illegible] guarantors and sureties [illegible] their legal liabilities will be enforced [illegible]

22. Present contractors and [illegible] Department not equally with others [illegible] and certificates of their sufficiency [illegible] forms above prescribed. The [illegible] must be signed by a postmaster [illegible] of record. No other will be admitted.

JNO. A. J. CRESWELL,
Postmaster General.
